Ahmad Al Ahmad

Full Stack Web Developer

Beirut, Lebanon | +96171378244 | dev.ahmadlahmad@gmail.com | LinkedIn | GitHub | alahmad.dev

Job Objective

To obtain a challenging position as a Full Stack Web Developer where I can utilize my skills in front-end and back-end development to create innovative and efficient solutions for clients. I am seeking a role that allows me to work in a dynamic and collaborative environment where I can continue to learn and grow as a developer while contributing to the success and growth of the team.

Experience

York Press Limited | Zouk Mosbeh, Lebanon

Full-Stack Web Developer | Full-time (March 2024 - Present)

- Business and Technological Collaboration: Define business and technological requirements in collaboration with project managers to maximize project outcomes. Ensure effective, value-driven solutions for success and ongoing professional development. Bridge the gap between business and technology.
- **Microservices Development:** Develop and implement microservices architecture applications with Apollo Server and Node.js for maximum performance, scalability, and dependability.
- **Collaborative API Design:** Design robust APIs and data models with cross-functional teams, facilitating seamless interaction between front-end and back-end systems.
- User-Centric Interfaces: Utilize Apollo Client to optimize state management and data retrieval through responsive UIs. Maintain a well-documented codebase, employ GitHub for version control, and leverage Next.js features to swiftly create server-rendered web applications.
- Effective Debugging and Problem Resolution: Effectively identified, analyzed, and resolved complex system issues using logical reasoning and strategic problem-solving. Implemented solutions that improved overall system stability and performance.

Distin-Gui | Beirut, Lebanon

Full-Stack Web Developer | Full-time (June 2023 - Jan 2024)

- Contributed to the development of Ecommerce projects, utilizing NextJs, TypeScript, and Tailwind CSS for frontend.
- Employed Node.js for backend development within the context of Ecommerce projects.
- Collaborated with the development team, delivering high-quality code and achieving project objectives.
- Applied agile methodologies and worked in a fast-paced environment.
- Engineered efficient and scalable web applications using Next.js, leading to a 20% increase in overall site performance.
- Enhanced codebase robustness with TypeScript, reducing bug reports by 30% during the quality assurance phase.
- Crafted visually engaging interfaces with Tailwind CSS, incorporating animations for a delightful user experience.

Codi Tech | Beirut, Lebanon

Full-Stack Web Developer | Internship (Nov 2022 - June 2023)

- Used various Backend technologies including Node.js, Express.js, MongoDB, PHP, Laravel, MySQL, PhpMyAdmin, SQLite, Postman API, REST APIs, API Development, SQLite.
- Developed the Frontend of several projects using various libraries and frameworks such as React.js, HTML5, Cascading Style Sheets (CSS), JavaScript, React Native.
- Worked on administering and maintaining the server hardware and software using LAMP Stack and Linux.
- Employed the Agile methodology of project management to plan, organize, and optimize workflow, ensuring successful project completion and client satisfaction.

Projects

Portfolio | Next.js, TypeScript, Tailwind CSS Live Demo

- Developed a comprehensive personal portfolio website, prioritizing a user-centric design approach.
- Ensured swift loading times, seamless responsiveness across various devices, and an intuitive user experience.

E-commerce Website for Selling Gym Supplements | MERN Stack Live Demo

- Developed a fully functional e-commerce website to sell a wide range of gym supplements.
- Implemented an intuitive dashboard, providing insights into order management, customer accounts, and reviews.
- Developed a shopping cart feature that allows customers to add products, adjust quantities, and proceed to a secure checkout process.
- Implemented a user-friendly and responsive design, ensuring optimal viewing and smooth browsing experience across various devices and screen sizes.

E-commerce Website for Photography Studio Rentals, Prints, and Accessories | MERN Stack Live Demo 05-2023

- Developed an E-commerce website from scratch to rent a studio, and sell prints and accessories.
- Implemented a Dashboard feature that enables the client to add, edit, delete products, and manage orders.
- Developed user-friendly interfaces to enhance the customer shopping experience and increase sales.

LMS(Learning Management System) | LAMP Stack

• Developed a Learning Management System utilizing Laravel for the backend, ReactJS for the frontend, and MySQL as the database. Implemented multiple user roles with varying privileges, allowing for effective management of learning materials and activities. The project provided an intuitive user interface for both students and instructors.

E-commerce Bookshop Website | MAMP Stack

- Developed an e-commerce website with a user-friendly and responsive interface that enabled customers to seamlessly browse and purchase books online.
- Utilized PHP as the backend and MySQL as the database , with HTML, CSS, and JS used for frontend development.

Education

Bachelor degree in Management Information System | Lebanese University (Oct 2019 - 2022)
